-  **Title:** **EP0619243A1: Anti-theft device for containers provided with a capping or overcapping means**[\[German\]](#)[\[French\]](#)
-  **Derwent Title:** Shop anti-theft device for alcoholic spirit bottle closed by cork - uses micro-circuit, printed circuit or antenna set under top seal of bottle to activate detector at check-out [\[Derwent Record\]](#)
-  **Country:** EP European Patent Office (EPO)
-  **Kind:** A1 Publ. of Application with search report ⁱ (See also: [EP0619243B1](#))
-  **Inventor:** **De Vaujany, Robert;**
-  **Assignee:** **Manufacture Lyonnaise de Bouchage Société Anonyme**
[News, Profiles, Stocks and More about this company](#)
-  **Published / Filed:** **1994-10-12 / 1994-03-31**
-  **Application Number:** **EP1994000420109**
-  **IPC Code:** **B65D 51/24;**
-  **ECLA Code:** **B65D55/02J;**
-  **Priority Number:** 1993-04-08 **FR1993000004408**
-  **Abstract:** This anti-theft device is intended for containers such as bottles. A magnetically and/or electromagnetically detectable means (4) is integrated into the capping or overcapping means (3) of the container (1). The detectable means (4) may be an electronic microcircuit, a printed circuit or an emitter filament, inserted between the cap (5) and the seal (6) of a stopper (3), and applied or fixed either to the bottom (7) of the cap or to the upper face of the seal (6). This means (4) is detected when a defrauder passes beneath a door or between detector panels.
